Article 2. Product Installation and Required Activation

There are technological measures in this Software that are designed to prevent unlicensed or illegal use of the Software. You agree that we may use these measures to protect the Software against software piracy. This Software may contain enforcement technology that limits the ability to install and uninstall the Software on a computer to not more than a finite number of times for a finite number of computers or users. This License and the Software containing enforcement technology require activation as further set forth in the documentation. The Software will only operate for a finite period of time prior to Software activation by you. During activation, you will provide your unique product key accompanying the Software and computer configuration in the form of an alphanumeric code over the Internet to verify the authenticity of the Software. If you do not complete the activation within the finite period of time set forth in the documentation, or as prompted by the Software, the Software will cease to function until activation is complete, which will restore Software functionality. In the event that you are not able to activate the Software over the Internet, or through any other method specified during the activation process, you may contact your authorized Cadac Organice Reseller Customer Support.

In case it is technically not possible to activate the software on the computer on which it should be used, we may provide a license-file to you, through which file you may activate the Software. This license-file is confidential, copyright material and is the property of Cadac Organice. It is provided to you under the condition that you use it discretely and solely for the activation of the Software in your organization and for the maximum number of licenses purchased by you, and further ensure that our rights,

including our IP-rights, are duly warranted and take all necessary measures to prevent the illegal use of the license-file.

Article 3. Software Maintenance

3.1. Software maintenance is compulsory when acquiring the Software. Software maintenance provides you the right to install and use new versions, releases and builds of the Software and the right to use updates of the documentation, except for those new versions, releases and builds that we make available by separate paid maintenance, or for any period for which you have otherwise separately acquired the right to obtain new versions, releases and builds. We reserve the right to designate specified new versions, releases and builds as requiring purchase of a separate maintenance at any time and without notice to you.

3.2. Software maintenance does not include the right to support, neither by telephone, e-mail, mail, on-site or by any other means. Your authorized Cadac Organice Reseller may provide support to you and reserves the right to make this support available by a separate paid support contract.

3.3. Software maintenance starts the moment the license is provided and continues upon payment of the annual software maintenance fee.

(a) When the license is provided between January 1st and June 30 of any year, the first maintenance period ends at December 31st of that year. When the license is provided between July 1st and December 31st of any year, the first maintenance period ends on December 31st of the next year.

(b) On January 1st of every year, the software maintenance is automatically renewed for one year, unless you gave us written notice ultimately 3 month before the end of the prior year to stop the software maintenance.

(c) When software maintenance ends, you immediately loose the right to install and use new versions, releases and builds of the software and to use updates of the software documentation. When software maintenance is stopped and you want to install and use a new version, release or build of the software, you have to newly purchase this new version, release or build of the software.

(d) When software maintenance has stopped and you want to restart the software maintenance, you have to purchase software maintenance from the moment it ended with a price penalty of 50% over the period the software maintenance was stopped until the moment it restarts.

3.4. Provided that the underlying Microsoft technology is still supported by Microsoft, and provided that we have not previously withdrawn maintenance through written notice, we shall only be responsible for providing maintenance for:

(b) Any releases and builds to that version; and

Some states or jurisdictions do not allow the exclusion or limitation of incidental, consequential or special damages, or the exclusion of implied warranties or limitations
